

PSFEG® Inc.

Pacific Structural and Forensic Engineers Global

Forensic & Structural Engineering Experts

During the past 40 years, PSFEG®'s structural and forensic engineers and scientists have been retained as structural engineering experts in over 500 litigation matters by law firms, insurance carriers, and local and U.S. governments.

They have provided numerous testimonies in trials, arbitrations, mediations, and depositions. They further serve in the capacity of arbitrators, offering neutral and professional resolution in contested matters.

Specializing in identifying and analyzing the sources of Building Code violations, construction, and design defects, and the causes of structural failures.
